

# Saksham Rai

Cloud / DevOps Engineer

☎ +91 92969 87321 | ✉ raisaksham204@gmail.com | 🐙 GitHub | 🔗 LinkedIn | ⚙️ Credly | 🌐 Portfolio

## Summary

Final-year B.Tech CSE student specializing in Cloud Computing & Automation and AWS Certified Solutions Architect – Associate, with hands-on experience in AWS, Linux, Docker, Terraform, GitHub Actions, CI/CD, Python and cloud infrastructure automation. Built containerized AWS deployment pipelines and cloud resource auditing tools, with internship experience in infrastructure deployment, monitoring and troubleshooting. Seeking a DevOps / Cloud Engineering opportunity and available to join immediately.

## Education

VIT Bhopal University

2023 – 2027

B.Tech CSE (Cloud Computing & Automation), **CGPA: 8.36/10**

## Technical Skills

**Cloud Platforms:** AWS (EC2, S3, IAM, VPC, ECR, CloudWatch, AWS CLI) · Microsoft Azure · Google Cloud Platform (GCP)

**DevOps & IaC:** Terraform · Docker · Kubernetes · GitHub Actions · Jenkins · CI/CD Pipelines · Infrastructure as Code

**Systems & Scripting:** Linux/Unix · Bash · Python · Git · REST APIs · Networking · Troubleshooting

**CS Fundamentals:** DBMS (SQL/NoSQL) · Operating Systems · Computer Networks

## Experience

Mactores | *Cloud Engineer Intern*

Remote | Aug 2026 – Present

- Implemented AWS cloud architectures designed by Solutions Architects, supporting reliable deployment and operation of customer cloud infrastructure.
- Provided **24x7 production support** through rotational shifts, monitoring cloud infrastructure, responding to operational issues, and improving monitoring and alerting through automation.
- Used Python/Bash scripting and open-source tools to automate operational tasks, troubleshoot infrastructure issues, and prepare monthly operational reports for customers.

Bondspe Financial Services Private Limited | *Cloud Engineer Intern*

Remote | May 2026 – Jul 2026

- Provisioned and managed AWS infrastructure including EC2, storage and networking resources for application deployment environments.
- Containerized applications using **Docker** and automated deployment workflows with **GitHub Actions**, streamlining CI/CD release processes.
- Performed infrastructure monitoring and troubleshooting and implemented AWS security best practices to improve reliability and operational security.

## Projects

**AWS Infrastructure & CI/CD Automation** 🐙 | *Docker · Terraform · GitHub Actions · AWS EC2/ECR/IAM* Jan 2026

- Architected and containerized **10+ backend applications and REST endpoints**, deploying them on AWS EC2 via Docker and GitHub Actions to establish a fast, repeatable delivery pipeline.
- Automated infrastructure provisioning and CI/CD workflows with Terraform and GitHub Actions, **cutting manual deployment time by 75%**.
- Configured IAM roles, GitHub Secrets, and Infrastructure-as-Code across **100% of provisioned resources**, eliminating hard-coded credentials and enforcing least-privilege security.

**AWS Resource Auditing & Cost Optimization Tool** 🐙 | *Python Boto3 · Terraform · AWS · GitHub Actions* May 2026

- Developed a Python/Boto3 AWS cost-optimization tool that identified and remediated underutilized resources, reducing EC2/EBS infrastructure costs by approximately **50%** in the tested environment.
- Automated detection of unattached EBS volumes, stopped EC2 instances, unassociated Elastic IPs and untagged resources, reducing manual cloud auditing.
- Implemented configurable dry-run and automated remediation workflows for safe resource cleanup and infrastructure troubleshooting.
- Provisioned test infrastructure with Terraform and LocalStack and integrated GitHub Actions for automated testing, validation and JSON/Markdown audit-report generation.

## Certifications

- AWS Certified Solutions Architect – Associate (SAA-C03)** Aug 2026
- Microsoft Certified: Azure Administrator Associate (AZ-104)** Sep 2026
- Google IT Support Professional Certificate** Jan 2026
- Google Cloud Arcade Facilitator Program – Legend Tier (85 Points)** Jul 2025
