Summary

Final-year B.Tech CSE (Cloud Computing & Automation) student with hands-on experience across **AWS and GCP**, DevOps automation, and 24x7 production infrastructure support. Skilled in Terraform, Docker, Chef, GitHub Actions, and CI/CD pipelines for building reliable, scalable systems. **AWS Certified Solutions Architect – Associate**, AWS Certified Cloud Practitioner, and Google Cloud Arcade Legend. Seeking a Cloud Engineering / DevOps Internship.

Education

VIT Bhopal University

2023 – 2027

B.Tech CSE (Cloud Computing & Automation), **CGPA: 8.36/10**

Technical Skills

Programming & CS Fundamentals: Python · DBMS (SQL/NoSQL) · Operating Systems · Computer Networks

Cloud Platforms: AWS (EC2, S3, IAM, VPC, ECR, CloudWatch, AWS CLI) · Google Cloud Platform (GCP)

DevOps & Automation: Terraform · Docker · Kubernetes · GitHub Actions · CI/CD Pipelines · Git · REST APIs

Experience

Mactores | *Cloud Engineer Intern*

Remote | Aug 2026 – Present

- Implemented multi-cloud architectures across **AWS** as designed by Solutions Architects, supporting reliable customer cloud deployments.
- Delivered **24x7 operational support**, monitoring customer production infrastructure in rotational shifts and improving monitoring and alerting through automation tooling.
- Used **Chef**, scripting languages, and open-source tools to manage infrastructure reliably, prepared monthly operational reports for customers, and helped the team evaluate and adopt new technologies.

Bondspe Financial Services Private Limited | *Cloud Engineer Intern*

Remote | May 2026 – Jul 2026

- Provisioned and managed AWS cloud resources, configuring EC2 instances and administering storage and networking services for infrastructure deployment.
- Containerized applications using **Docker** and assisted in deployment automation with **GitHub Actions**, streamlining the CI/CD release process.
- Performed infrastructure troubleshooting, system monitoring, and implemented cloud security best practices to strengthen environment reliability.

Projects

Full DevOps Automation Platform 🐙 | *Docker · Terraform · GitHub Actions · AWS EC2/ECR/IAM*

Jan 2026

- Architected and containerized **10+ backend applications and REST endpoints**, deploying them on AWS EC2 via Docker and GitHub Actions to establish a fast, repeatable delivery pipeline.
- Automated infrastructure provisioning and CI/CD workflows with Terraform and GitHub Actions, **cutting manual deployment time by 75%**.
- Configured IAM roles, GitHub Secrets, and Infrastructure-as-Code across **100% of provisioned resources**, eliminating hard-coded credentials and enforcing least-privilege security.

AWS Cost Optimization & Governance Tool 🐙 | *Python · Terraform · LocalStack · AWS boto3*

May 2026

- Engineered and deployed a Python application using object-oriented design principles to optimize cloud costs, **achieving a 50% reduction in AWS EC2/ECR/IAM expenses**.
- Designed a modular AWS resource-scanning engine (boto3) with custom data structures that **identifies orphaned resources across 4 categories** — unattached EBS volumes, stopped EC2 instances, unassociated Elastic IPs, and untagged assets — via dry-run and automated remediation modes.
- Integrated Terraform, LocalStack, and GitHub Actions into a unified CI pipeline, and delivered structured JSON/Markdown cost reports via a lightweight reporting API, **strengthening cloud governance**.

Certifications

- AWS Certified Solutions Architect – Associate (SAA-C03)** Aug 2026
- AWS Certified Cloud Practitioner (CLF-C02)** Jun 2026
- Google IT Support Professional Certificate** Jan 2026
- Google Cloud Arcade Facilitator Program (Legend Tier – 85 Points)** Jul 2025

Achievements

- Earned Google Cloud Arcade Legend status (Season 1, 2025) after completing 400+ Google Cloud Skills Boost labs across GKE, Compute Engine, BigQuery, and Vertex AI; built and shipped a production-grade AWS DevOps platform end-to-end.
